Summary

SDET with hands-on experience in Cypress, Selenium WebDriver, and Playwright for UI/API automation testing. Proficient in JavaScript, Java, and Python. Skilled in functional, regression, smoke, and UAT testing within Agile/Scrum environments. Proven expertise in CI/CD integration (GitHub Actions, Jenkins), test case creation from JIRA, defect tracking, and backend validation using SQL.

Experience

Software Development Engineer in Test (SDET) **Nov. 2025 – Present**
MethodHub Software Ltd, Chennai, Tamil Nadu

- Architected and maintained 20–50 automated test scripts using Selenium WebDriver, Playwright, and Cypress with Java and Python, implementing Page Object Model (POM) patterns and reducing manual regression testing effort by approximately one day per sprint.
- Designed and executed comprehensive test cases, scenarios, and test data sets from JIRA user stories and feature descriptions, ensuring alignment with Agile sprint cycles and STLC best practices.
- Conducted UI, functional, API, and regression testing using Cypress (cross-browser automation) and Postman (REST API validation), with backend data verification using SQL; logged and tracked 10–25 defects per sprint via Jira.
- Integrated automated test suites into CI/CD pipelines using GitHub Actions and Jenkins, enabling continuous validation across 5–10 enterprise web application modules.
- Performed smoke, sanity, UAT, and ad hoc testing to verify bug fixes and quality assurance process improvements; participated in sprint planning, stand-ups, and retros within Agile/Scrum framework.
- Collaborated with developers and business analysts to debug test scripts, reproduce anomalous results, and resolve production issues, supporting 4–6 releases to date.

Website Developer (Freelance) **Oct. 2023 – Apr. 2024**
Empco Herbal Website, Remote

- Developed a responsive WordPress business website with emphasis on UI/UX, SEO, accessibility, and page performance.
- Designed wireframes and prototypes in Figma prior to implementation to align design and development.
- Optimized the website for mobile devices and cross-browser compatibility.
- Configured plugins for security, backup, monitoring, and performance optimization.

Technical Skills

Programming Languages: Java, Python, JavaScript

Test Automation (UI & API): Cypress (cross-browser testing, functional automation, API testing), Selenium WebDriver (Page Object Model, Data-Driven Testing), Playwright, TestNG, JUnit, PyTest, Cucumber (BDD), JMeter, Test Automation Framework Design, Cross-Browser Testing

Testing Methodologies: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UAT, Black Box Testing, Test Case Design, Bug Verification, Defect Life Cycle, STLC, SDLC, Agile/Scrum, Test Planning, Software Quality Assurance (SQA)

API Testing: Postman, Thunder Client, REST API Testing, API Automation

CI/CD & DevOps: Git, GitHub, GitLab, Jenkins, GitHub Actions (Cypress integration), Maven, Docker, Kubernetes

Test Management & QA Tools: Jira, TestRail, Allure Reports

Databases: MySQL, PostgreSQL, SQL

Web Technologies: HTML, CSS, JavaScript, WordPress

Education

Sathyabama Institute of Science and Technology

Bachelor of Engineering in Computer Science and Engineering (IoT) 2021–2025

Pon Vidyashram Group of Schools

Higher Secondary Education (Computer Science + Biology) 2021

Certifications

Introduction to Playwright Jan 2026

- TestAutomationU – Credential ID: 6fd29fe6
- Modern end-to-end test automation concepts, browser automation fundamentals, and reliable UI testing practices using Playwright.

Introduction to Selenium Jan 2026

- Simplilearn – Credential ID: 9780528
- UI test automation fundamentals, Selenium WebDriver basics, and automated testing concepts for web applications.

Java, SQL & Software Testing Training Jan 2026

- QSpiders – Software Testing Training Institute
- Professional training covering Java, SQL, Manual Testing, and Selenium. Hands-on exposure to software testing fundamentals, database querying, test case design, and basic automation concepts.
