EXPERIENCE

Software Development engineer in Test Intern

Nov. 2025 –Mar. 2026

MethodHub Software Ltd

Chennai, Tamil Nadu

- Performed functional testing, manual testing, and automated testing of web applications, validating business requirements and improving software quality through structured debugging and test execution.
- Designed and executed test cases, test plans, and test data to support comprehensive functional testing and regression testing across application modules.
- Implemented test automation using Selenium WebDriver and Playwright with Java to automate regression testing and improve test efficiency.
- Conducted API testing using Postman and backend validation using SQL queries, while managing defect tracking, debugging, and reporting through Jira in an Agile development environment.

Website Developer (Freelance)

Oct. 2023 –Apr. 2024

Empco Herbal Website

Remote

- Developed a WordPress business website focusing on UI/UX design, responsive design, SEO optimization, accessibility, and web performance.
- Created wireframes and interactive prototypes in Figma, defining user flows, UI layouts, and design architecture before development.
- Implemented a mobile-first responsive design with cross-browser compatibility to ensure consistent user experience across desktop, tablet, and mobile devices.
- Configured WordPress plugins for security, backups, uptime monitoring, scalability, and performance optimization, delivering the project remotely through structured client communication and freelance project delivery.

TECHNICAL SKILLS

Programming Languages: Java, Python

Software Testing & Automation: Manual Testing, Test Case Design, Defect Life Cycle, SDLC, STLC, Agile/Scrum ,Selenium WebDriver, Playwright, Cypress ,TestNG, JUnit, PyTest , JMeter,Cucumber (BDD Framework) JIRA, TestRail (basic), Allure Reports

API Testing: Postman, Thunder Client

Version Control & CI/CD: Git, GitHub, GitLab Jenkins, GitHub Actions (basic), Maven, Docker, Kubernetes

Database: MySQL, Oracle, postgresql

Web Technologies: HTML, CSS, WordPress Development

Development Tools & IDEs: VS Code, Eclipse, IntelliJ IDEA, Jupyter Notebook, Arduino IDE,Antigravity

EDUCATION

Sathyabama Institute of Science and Technology

Chennai, Tamil Nadu

Bachelor of Engineering in Computer Science and Engineering (IoT)

2021 – 2025

Pon Vidyashram Group of Schools

Chennai, Tamil Nadu

Higher Secondary Education (Computer Science + Biology)

Completed 2021

PROJECTS

IoT-Based Fall Detection System | ESP32, Gyroscope, Blynk

2025

- Built a real-time fall detection system for elderly monitoring using ESP32 and motion sensors
- Applied threshold-based logic, sensor calibration, and instant mobile alerts via Blynk

Smart Biogas Optimization System | IoT Sensors, Data Monitoring

2023

- Designed an IoT monitoring system to track biogas production parameters in real time
- Improved gas yield through data-driven analysis of temperature and pressure metrics

WordPress E-Commerce Website | WordPress, HTML, CSS

2021

- Developed a responsive e-commerce website using WordPress with custom themes and plugins
- Optimized UI, product workflows, and usability for a smooth shopping experience

RESEARCH PUBLICATIONS & CONFERENCES

- Smart Mirror, published and presented at ICIMBT, SRM University, Chennai.
- Smart Biogas Optimization, published and presented at ICDSAAI, CIT University (IEEE Recognized).
- Industrial Visit at Network Geeks, Chennai: Exposure to networking fundamentals and cloud operations.
