EDUCATION

Sathyabama Institute of Science and Technology

Bachelor of Engineering in Computer Science and Engineering (IoT)

Chennai, Tamil Nadu

2021 – 2025

Pon Vidyashram Group of Schools

Higher Secondary Education (Computer Science + Biology)

Chennai, Tamil Nadu

Completed 2021

TECHNICAL SKILLS

Programming Languages: Java, Python

Software Testing & Automation: Manual Testing, Test Case Design, Defect Life Cycle, SDLC, STLC, Agile/Scrum, Selenium WebDriver, Playwright, Cypress, TestNG, JUnit, PyTest, JMeter, Cucumber (BDD Framework)

API Testing: Postman, Thunder Client

CI/CD & DevOps: Jenkins, GitHub Actions (basic), Maven, Docker, Kubernetes

Version Control: Git, GitHub, GitLab

Database: MySQL, Oracle, postgresql

Test Management & Reporting: JIRA, TestRail (basic), Allure Reports, Extent Reports

Web Technologies: HTML, CSS, WordPress Development

Development Tools & IDEs: VS Code, Eclipse, IntelliJ IDEA, Jupyter Notebook, Arduino IDE, Antigravity

EXPERIENCE

Software Tester Intern

MethodHub Software Ltd

Nov. 2025 – Feb. 2026

Chennai, Tamil Nadu

- Performed functional and manual testing of web applications to validate business requirements
- Designed and executed test cases, test scenarios, and test data for comprehensive coverage
- Automated regression and functional test cases using Selenium WebDriver and Playwright with Java
- Conducted API testing using Postman and validated backend data using SQL queries
- Logged, tracked, and retested defects using JIRA in an Agile environment

PROJECTS

IoT-Based Fall Detection System | ESP32, Gyroscope, Blynk

2025

- Built a real-time fall detection system for elderly monitoring using ESP32 and motion sensors
- Applied threshold-based logic, sensor calibration, and instant mobile alerts via Blynk

LPG Leak Detection and Auto Cutoff System | MQ Sensor, Servo, IoT

2024

- Developed an IoT-based LPG gas leak detection system for domestic safety
- Automated gas valve shutoff and real-time alerts using sensor integration and servo control

Smart Biogas Optimization System | IoT Sensors, Data Monitoring

2023

- Designed an IoT monitoring system to track biogas production parameters in real time
- Improved gas yield through data-driven analysis of temperature and pressure metrics

WordPress E-Commerce Website | WordPress, HTML, CSS

2021

- Developed a responsive e-commerce website using WordPress with custom themes and plugins
- Optimized UI, product workflows, and usability for a smooth shopping experience

RESEARCH PUBLICATIONS & CONFERENCES

- Smart Mirror, published and presented at ICIMBT, SRM University, Chennai.
- Smart Biogas Optimization, published and presented at ICDSAAI, CIT University (IEEE Recognized).
- Attended ICDSAAI Conference, CIT University, Chennai.
- Attended ICIMBT Conference, SRM University, Chennai.
- Industrial Visit at Network Geeks, Chennai: Exposure to networking fundamentals and cloud operations.

CERTIFICATIONS

Java, SQL & Software Testing Training — QSpiders

Selenium WebDriver Certification — upGrad

Playwright Test Automation Certification —

TestAutomationU

OOPs in Java — NPTEL

Data Structures and Algorithms using Python —

NPTEL

SQL: Introduction for Querying Databases — IBM

Python for Data Science, AI & Development — IBM

Oracle Cloud Infrastructure Associate — Oracle

IBM Cloud Essentials V3 — IBM

Course on C Programming — Livewire

Digital 101 Journey — NASSCOM
